Scope of accreditation

Testing laboratory according to SS-EN ISO/IEC 17025:2018

Eurofins Food & Feed Testing Sweden AB

Lidköping

Accreditation number

1977

Lidköping

A002006-003

Correction

Deleted method for fat&fiber, pH is added, AMPA new method, pesticides in soil new technique, cereal/seed analysis have new notes

Changes in the scope of accreditation are in bold.

The scope of accreditation is flexible as specified in this decision. The accredited body must always retain a current list of the scope for which it is accredited.

Type of flexible scope

- 1: - Introduce new version of standard method and make editorial changes to non-standard method
- 2: - Introduce new version of standard method and make editorial changes to non-standard method - Introduce new version and modifications of non-standard method. The procedure must be equivalent - Introduce new parameter/component/characteristics - Introduce new measurement range - Introduce new material/new products/matrices - Introduce new method equivalent to methods already in the accreditation decision
