Changes in the scope of accreditation are in bold.

The scope of accreditation is flexible as specified in this decision. The accredited body must always retain a current list of the scope for which it is accredited.

Date

Case number

2024-03-07

2023/2033

Type of flexible scope

1: - Implement new version of requirements specification

2: - Implement new version of requirement specification - Implement new version of certification scheme (Can not include changed requirements directed at the certification body and/or major changes regarding conformity assessment functions or activities, according to ISO/IEC 17067:2013)

3: - Implement new version of requirements specification - Implement new version of certification scheme (Can not include changed requirements directed at the certification body and/or major changes regarding conformity assessment functions or activities, according to ISO/IEC 17067:2013) - Implement new product/process in existing cluster
