Scope of accreditation

Inspection body according to SS-EN ISO/IEC 17020:2012

RISE Research Institutes of Sweden AB
 Brandteknik

Accreditation number
 1002
 A002626-075

Factory production control

Type of inspection body: A

| <i>Object</i> | <i>Requirement specification</i> | <i>Type of control</i> | <i>Field</i> |
|----------------------------------------------------------------------------|----------------------------------------|----------------------------|--------------|
| Canvas | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Chimneys, flues and specific products | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Curtain walling/cladding/structural sealant gazing | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Doors, windows, shutters, gates and related building hardware | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Fire stopping, fire sealing, fire protective and fire retardant products | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Fixed fire fighting equipment | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Flooring and groundcovers | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Internal and external wall and ceiling finishes, internal partition kits | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Power, control and communication cables | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Roof covering, roof lights, roof windows and ancillary products, roof kits | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Sealants for joints | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
| Structural bearings, pins for structural joints | Inhouse method; SP-bes 4115, edition 6 | Factory production control | Yes |
